PATENT ASSIGNMENT

STATE OF : California

ss

COUNTY OF : San Mateo

WHEREAS Raychem Corporation ("Assignor"), a Delaware corporation with offices at 300 Constitution Drive, Menlo Park, California, 94025-1164, is the owner of the entire right, title, and interest to: the Patents listed on the attached Exhibit A (the "Patents"); the applications for Patents listed on the attached Exhibit B (the "Patent Applications"); and the inventions covered by the Patents and the Patent Applications (the "Inventions");

AND WHEREAS Medtronic, Inc. ("Assignee"), a Minnesota corporation with offices at 7000 Central Avenue N.E., Minneapolis, Minnesota 55432, is desirous of acquiring the entire right, title, and interest in and to the Inventions in the United States and foreign countries and in and to the Patents and the Patent Applications;

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and intending to be legally bound hereby, Assignor hereby assigns and transfers to Assignee, its successors and assigns:

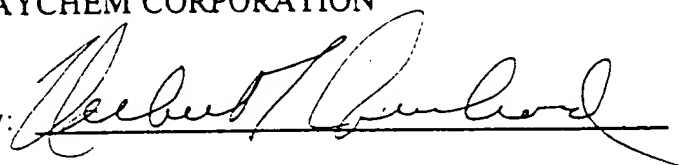

- (1) the entire right, title, and interest in and to the Inventions, the Patents and the Patent Applications;
- (2) the entire right, title and interest in and to any United States or foreign Patents which may issue with respect to the Inventions or the Patent Applications;
- (3) the entire right, title and interest in and to any renewals, reissues, divisions, substitutions, continuations, continuations-in-part and extensions of the Patents and that may be filed with respect to the Inventions and the Patent Applications;
- (4) all rights of action arising from the Patents and any patents that may issue with respect to Inventions and the Patent Applications, all claims for damages by reason of past infringement of the Patents and any patents that may issue with respect to the Inventions and the Patent Applications, and the right to sue and collect damages for such infringement, to be held and enjoyed by the Assignee for its own use and benefit and for its successors and assigns as the same would have been held by Assignor had this assignment not been made; and
- (5) the right to apply for patents in foreign countries in its own name and to claim any priority rights to which such foreign applications are entitled under international conventions, treaties or otherwise.

Assignor further agrees to execute and deliver without further consideration any applications, assignments or other documents and to perform such other lawful acts as Assignee, its successors and assigns may deem necessary to fully secure, maintain and enforce its rights, title or interest as outlined herein.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue to Assignee any Patents which may be granted in accordance with this Assignment.
